

Completely answer 2 of the following questions for your Solution Briefing Poster

As you prepare for the briefing, make sure you can answer questions like these:

- How is your design constructed?
- ~~• What materials did you use?~~
- Why did you design and build it the way you did?
- How does the design meet the criteria?
- How did the challenge constraints affect the design?
- What past experiences helped you make your design?
- What problems remain?
- What things did you try along the way?
- ~~• How well does your book support work? What else do you want to test?~~
