

64 Antacid Demo Notes

Several test tubes are filled with the same amount of water but different amounts of antacid.

Predict: write and draw what you think will happen

--	--	--	--

Observe: write and draw what actually happened include any differences

--	--	--	--

1. What variables were changed, or manipulated, in this investigation? What variables were controlled?

3. What indicator(s) of chemical energy did you observe in this investigation?

4. What factor that controls the amount of chemical energy did you investigate?
